

Dyna-Wave™

Water Feature Pool Pumps

by Sta-Rite®

Best performance in a feature role

Special features like fountains and waterfalls can create a dazzling display of water in your poolscape. But before the show can go on, some behind-the-scenes work must take place. That's where the Sta-Rite Dyna-Wave™ water feature pump gets into the act. On cue, the dramatically quiet Dyna-Wave delivers a steady stream of water so you can sit back and enjoy the show. And this pump is a real trooper. Year after year, the Dyna-Wave is there to perform in a feature role. Here's a list of its other credits:

- High-efficiency motor and superior hydraulic design deliver effortless performance, energy savings, and long life.

- Precision-fit internal components and a specially designed sound-dampening base make the Dyna-Wave extremely quiet. Nothing to distract you during the show!
- The engineers were listening when pool owners said low maintenance was important. They designed an extra-large trap to hold more dirt, and a "clear-view" lid so you can check for debris without lifting a finger.
- Rugged weather-resistant construction and a heavy-duty motor make the Dyna-Wave a sure bet for years of trouble-free operation.

When the show must go on, count on a powerful performance by Dyna-Wave.

Dyna-Wave™ Water Feature Pumps

A breeze to service

Quick-disconnect plumbing unions allow faster disassembly – service guys love them!

Efficiency expert

High-efficiency electric motor saves on electrical operating costs.

So easy, so quick

A single twist-and-lift motion opens the “clear-view” trap lid. It’s that fast!

Filled to capacity

6” extra-large-capacity trap collects more debris, which means a lot less maintenance.

Engineering marvel

Innovative hydraulic design moves more water with less effort, which reduces operating costs.

An “A” list performer

Sta-Rite earned its unparalleled reputation by gaining the confidence of professional pool builders, and ultimately satisfying pool owners. Every feature of the Dyna-Wave™ has been engineered to answer the needs of today’s savvy buyer – high efficiency, low maintenance and reliability. The Dyna-Wave hits the mark.

Save money on energy costs

Superior flow dynamics effortlessly move more water. Combined with the energy-efficient motor, the Dyna-Wave is the ultimate energy saver.

A lot less maintenance

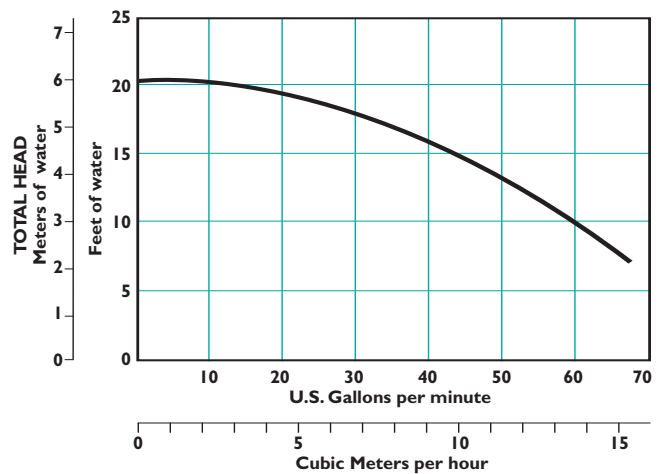

When cleaning is required, an easy twist of the wrist gives you access to the ultra-sized strainer basket. Simply empty the basket, re-attach the “clear-view” trap lid and twist it to the right.

Built for the long-run

Only the finest materials are used to build lasting quality into every Dyna-Wave. On the outside, Sta-Rite’s exclusive Dura-Glas® composite resin will never corrode and weathers temperature extremes. On the inside, a heavy-duty shaft seal and impeller stand tough against harsh chemicals.

Performance Curve

One-year limited warranty. See warranty for details.
